

CHAITANYA JAIN

Game Developer & 3D Artist

Agra, Uttar Pradesh | chaitanya.jain.gamedev@gmail.com | [LinkedIn](#) | [Github](#) | [ArtStation Portfolio](#) | (+91)7895644332

I am a Game Developer and 3D Artist with experience in 3D modeling and C++ programming. I specialize in multiplayer game mechanics and game systems development. Proficient in Unity and Unreal Engine for game development and real-time rendering. Seeking opportunities to contribute to innovative game development projects. I am eager to learn new technologies and improve my skills in both programming and 3D art.

EDUCATION

B.Tech Computer Science GLA University, Mathura, Uttar Pradesh	2023 - Present
Intermediate Boston Public School, Agra, Uttar Pradesh	2021 - 2023

SKILLS

Languages : C, C++, C#, Python, Java
Game Development : Unreal Engine 5, Unity 6
3D Modelling and Texturing : Blender, Photoshop
Backend & Networking : Photon, MySQL, .NET, Firebase
Cloud Services : Google Cloud
Version Control : Git, GitHub
Non-Technical Skills : Leadership, Event Management, Team Collaboration
Competitive Programming: Active participant on Codeforces, AtCoder

PROJECTS

VR Tour Game Unreal Engine 5, Blender, C++ - Designed and optimized high-quality 3D environments, props, and assets for a virtual reality experience. - Modeled low-poly and high-poly assets, ensuring VR performance optimization with LODs and baked lighting. - Created realistic textures and materials using Blender following PBR workflows for accurate lighting and reflections.	Oct 2024 - Present
Multiplayer Networking System Unity6, C# - Handled network latency and synchronization issues to ensure a seamless player experience. - Implemented core gameplay mechanics, including movement and player interaction. - Integrate multiplayer frameworks like Mirror, Photon, or Netcode for GameObjects for smooth networking.	Feb 2025 - Present

EXPERIENCE

Droid Club Game Development Member - Managed the club's technical operations for events. - Conducted workshops to teach members new technical skills. - Mentored junior members, fostering a culture of learning and innovation.	Sep 2024 - Present
Inexia Freelance 3D Generalist - Led the development of VR and game products, managing projects from start to finish. - Utilized Unreal Engine, Blender, and other 3D software to design and build realistic environments and interactive experiences. - Managed a team of developers and designers, ensuring timely project delivery and high-quality results.	Oct 2024 - Present

ADDITIONAL INFORMATION

Hobbies:

- Reading
- 2D Art
- Playing Video Games

Achievements:

- College Coding Hackathon 2024 (2nd Runner-up)
